How Corporate Social Responsibility is Promoting a Connected World

SHELLEY MCKINLEY
VP, TECH & CORPORATE RESPONSIBILITY
MICROSOFT CORPORATION

NOVEMBER 5, 2020
Microsoft mission

Empower every person and every organization on the planet to achieve more
Together, we can create a future that is for everyone

And Inclusive Recovery and a Sustainable Planet

Equip people with the computing and AI skills needed to thrive in the digital economy

Enable people of all abilities to succeed at home, school, work, and in our communities

Commit to a sustainable future, through our own operations and by using technology to accelerate others.
The world faces an urgent connectivity gap

Internet usage is 53.6% globally
- 87% developed countries
- 47% in developing countries
- 19.1% in least developed countries.
In the United States rural areas have significant gaps

With no internet access, there is no access to cloud and the opportunities of 21st century technology
Airband Initiative mission - connect the unconnected

We partner with equipment makers, internet and energy access providers, and local entrepreneurs to make affordable broadband access a reality for unserved communities around the world.

3 Million People projected to be covered in rural U.S. by July 2022

40 Million People projected to be covered globally by July 2022
We need Creative Solutions

To connect people to opportunity quickly and affordably, using public assets, like spectrum, for public good.
Thank you
