

# Spectrum, Innovation & Global Connectivity

**DSA Global Summit – Dubai, United Arab Emirates**

Michael Feldman  
Manager, International Public Policy

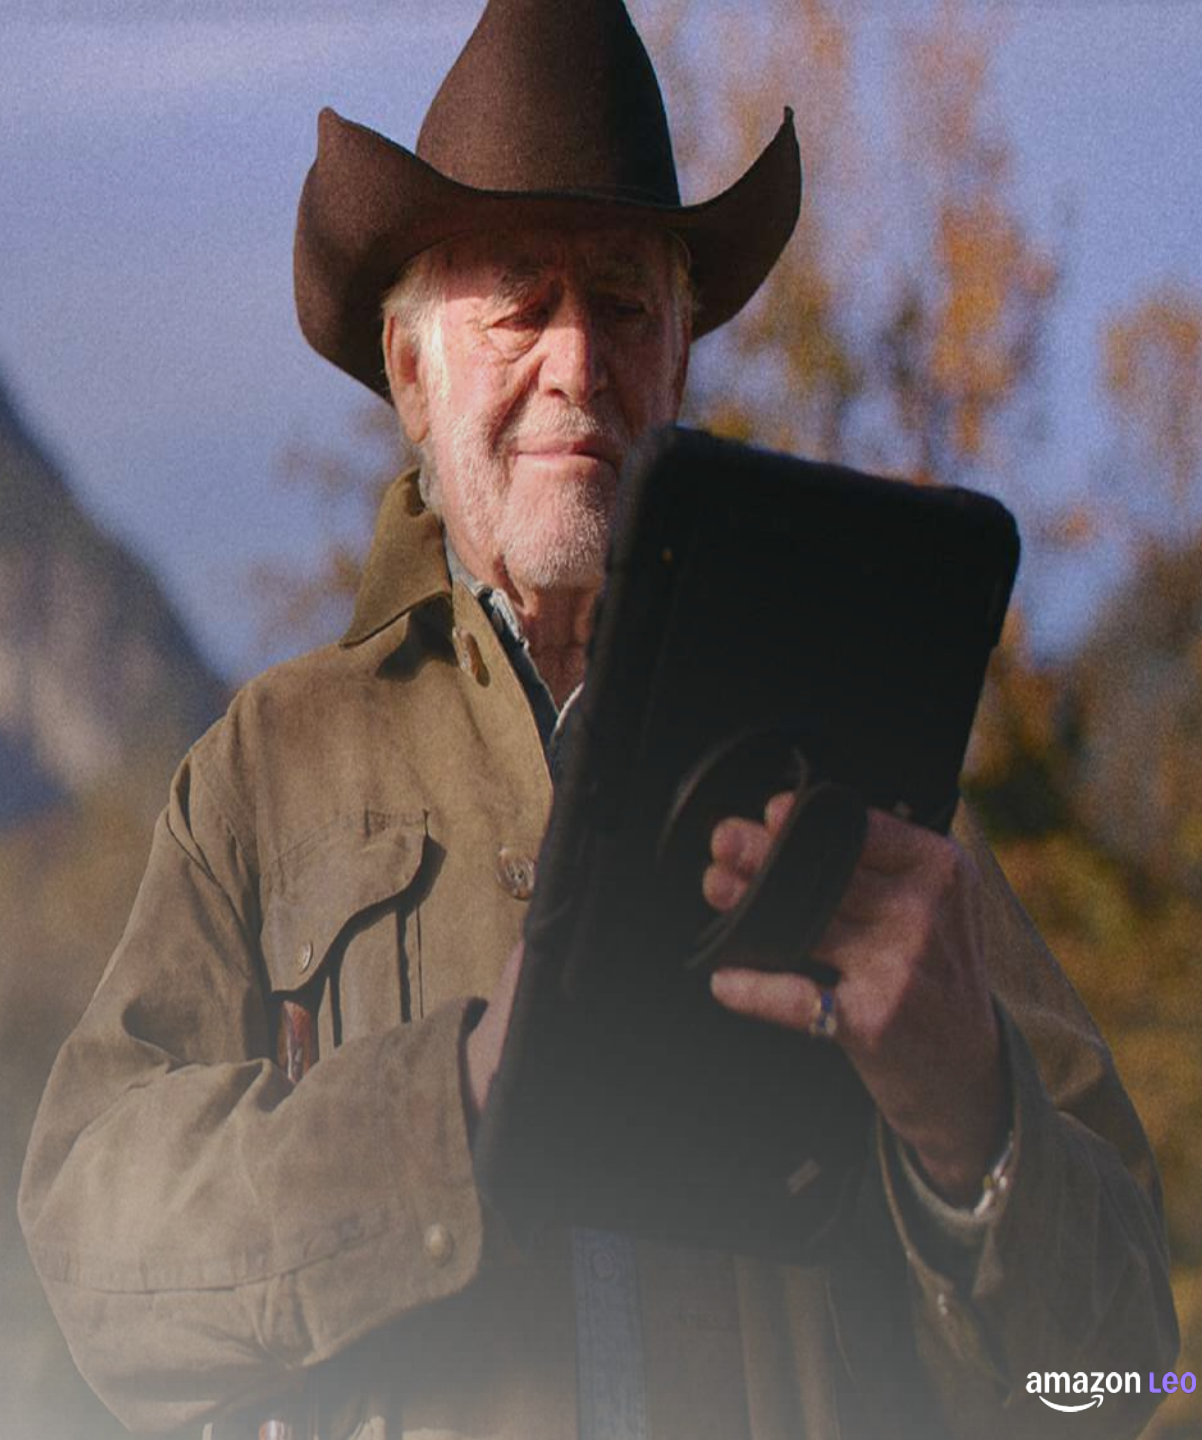

The **latest generation** of Wi-Fi (Wi-Fi 7) leverages 320 MHz channels to support **billions** of devices and applications.

It will take a variety of technologies to efficiently and effectively connect people everywhere. Solutions should be end-user-focused.

# amazon Leo

**We urge  
administrations  
to support continued  
ITU-R studies and modernize  
Equivalent Power Flux Density  
(EPFD) limits accordingly.**

The image features a high-angle, aerial view of a dense urban landscape, likely Seattle, with numerous skyscrapers and buildings. In the background, a large body of water is visible, with a bridge and a ship. The Amazon logo, consisting of the word "amazon" in white lowercase letters and a curved orange arrow underneath, is superimposed over the center of the image. The logo is large and prominent, covering a significant portion of the cityscape.
